August 25, 2020

To whom it may concern,

Northeast Colorado Health Department approves the use of State Food Safety for both the Food Handler and the Food Manager food safety trainings. Selecting the appropriate State and County allows for a more detailed experience, and facilities can choose to have employees train individually or via a group rate! The health and safety of our residents is our top priority. Having accessible trainings offered in multiple languages gives more options to the facilities within our jurisdiction, and overall allows for a safer food experience for customers.

Sincerely,

A handwritten signature in black ink that reads "Melvin Bustos".

Melvin Bustos
Environmental Health Manager
Northeast Colorado Health Department
